

Neuvetra · Saved evidence snapshot

Synthetic annual electricity and bill evidence

Draft · Synthetic · Incomplete company inventory · Unreleased · No assurance

One fictional CAMX facility, calendar 2023, location-based Scope 2. Manual entries and document attachment do not verify consumption, authenticate bills or grant filing approval.

Full-year electricity subtotal — all 12 months entered

58707.1269 kg CO₂e

Exact subtotal before display rounding: 58707.1269288 kg CO₂e. Manual annual quantity: 301000.000 kWh / 301.000000 MWh.

Totals reuse the exact selected annual version. Bill quantities are never added, substituted, prorated or annualized. Exact monthly values are summed before half-even rounding to four decimal places; displayed monthly results may not sum to the displayed subtotal. Precision does not establish measurement certainty.

Fictional company

Synthetic Cedar Ltd

Fictional facility

Synthetic California office

Entered months and attached documents

12 / 12 months entered; 1 / 12 months with attached documents. 0 month(s) with one attached document (not verified).

Missing input months

None

Missing document months

2023-02, 2023-03, 2023-04, 2023-05, 2023-06, 2023-07, 2023-08, 2023-09, 2023-10, 2023-11, 2023-12

Overlapping document months

2023-01

Quantity difference months

2023-01

These are separate, overlapping diagnostics; their counts must not be added. An explanation or manager decision does not clear a quantity difference. Two January bills describe the same consumption and are an unresolved overlap, never independent loads. Twelve entered months do not establish a complete company inventory or complete evidence.

Monthly manual entries

Missing is not zero. An explicit zero remains a manual assertion and still needs documentation. The historical annual version retains its original manual/no-bill basis; this separate evidence version adds the links listed below.

Month	Manual kWh	Exact kg CO2e	Displayed kg CO2e	Documents
2023-01	25000.000	4876.00722	4876.0072	Overlapping documents (not summed)
2023-02	25000.000	4876.00722	4876.0072	Missing document
2023-03	25000.000	4876.00722	4876.0072	Missing document
2023-04	25000.000	4876.00722	4876.0072	Missing document
2023-05	25000.000	4876.00722	4876.0072	Missing document
2023-06	25000.000	4876.00722	4876.0072	Missing document
2023-07	25000.000	4876.00722	4876.0072	Missing document
2023-08	25000.000	4876.00722	4876.0072	Missing document
2023-09	25000.000	4876.00722	4876.0072	Missing document
2023-10	25000.000	4876.00722	4876.0072	Missing document
2023-11	25000.000	4876.00722	4876.0072	Missing document
2023-12	26000.000	5071.0475088	5071.0475	Missing document

Retained January documents

Both supported fictional fixtures cover January 1–31, 2023, page 1 only. Statement dates do not establish February consumption. Each link records manual confirmation.
